

# Checking the OpenLCB (Sample) Protocol

The OpenLCB Group

February 25, 2024

## 1 Introduction

This note documents the procedure for checking an OpenLCB implementation against the ??? Protocol Standard.

The checks are traceable to specific sections of the Standard.

The checking assumes that the Device Being Checked (DBC) is being exercised by other nodes on the message network, e.g. is responding to enquiries from other parts of the message network.

## 2 (some protocol) Procedure

Select “Something) checking” in the program, then select each section below in turn. Follow the prompts for when to reset/restart the node and when to check outputs against the node documentation.

### 2.1 Subpart checking
